KiCad E.D.A. 9.0.7 | Id: 2/2

Two adjacent 0603 LEDs feed one diffused light pipe above the display.
Green 80–100%: both channels yellow 30–79%: red 0–29%. Each GPIO is current limited locally.
The always-on controller supplies PWM; this indicator remains available when key RGB is off.

Connected schematic; hardware and manufacturing validation pending
